

## **1. Agro-Biotics Nepal Pvt.Ltd.**

Agrobotics Nepal Pvt. Ltd, based in Bagmati Province, is transforming agriculture with its flagship platform, **Sajilo Krishi**. This tool enhances farm management by integrating livestock and crop management for breeding, health tracking, pest control, and yield optimization. It also offers features for financial transparency, including transaction and inventory management. Sajilo Krishi improves food security by increasing crop yields through precise farming techniques and providing tools for pest control and nutrient management.
